

Welcome to Weissenau

The hospital premises in Weissenau is located on the southern outskirts of Ravensburg and is easy to reach by car and public transport.

We've put together this site plan for you to make orientation over the extensive grounds easier. It gives you an overview of the individual buildings and lists important points of contact. The route to the various buildings is signposted on the entire site.

Information centre

Please contact the information centre, which is staffed at all times, in the entrance area if you have any questions. You can reach the information centre by phone on +49 (0) 751 7601-0.

ZfP Südwürttemberg

ZfP Südwürttemberg provides comprehensive psychiatric and psychosomatic care from Stuttgart to Lake Constance. There are now around 30 locations for treatment and support services. These services have been intensively linked, regionally and supra-regionally, to ensure integrated and comprehensive psychiatric care.

ZfP Südwürttemberg is committed to all areas of society so that mentally ill patients are not excluded and can participate in everyday life. The affected person should be able to lead a largely normal life thanks to medical, psychological, pedagogical, socio-therapeutic and rehabilitative help-

As a modern healthcare and social enterprise, almost 4000 staff work at ZfP Südwürttemberg and it offers a number of training positions. The company is committed to its staff and their families through part-time working models, job sharing, child care and comprehensive further education and training management.

Comprehensive assistance services

ZfP Südwürttemberg shall present all people affected by psychological problems with an individual assistance service coordinated to their needs.

Our services in the region

ZfP Südwürttemberg has an integrated care network in the district of Ravensburg and Bodenseekreis (Lake Constance district), allowing numerous people nearby care and support. By outsourcing wards, day clinics, psychiatric outpatient clinics, residential homes and groups to locations in Wangen, Ravensburg, Friedrichshafen, Überlingen and Aulendorf, patients are spared long journeys, noticeably improving on-site care. An outpatient psychiatric care service provides treatment at home in the Ravensburg area. Cooperation in the community psychiatric associations and with numerous partners further extends the treatment and support services in the region.

Nearby treatment

The relocation of care services in the region's metropolitan areas brings psychiatry closer to the affected people and enables timely forms of treatment.

How to reach us

By car:

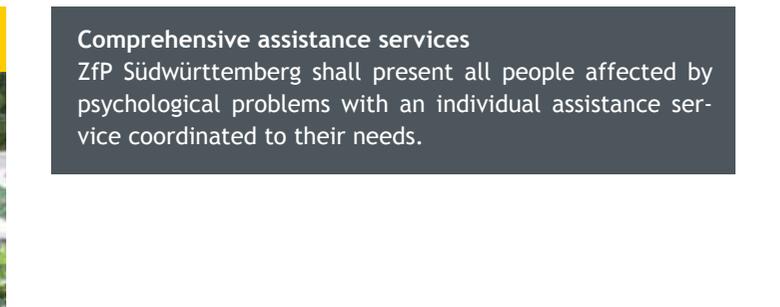

The exit for Weissenau, and later the psychiatry centre, is signposted on federal road 30 Ulm - Friedrichshafen and on federal road 33 coming from Meersburg. There are parking spaces in front of the centre.

By public transport:

Weissenau can be reached from Ravensburg train station either with the Bodensee-Oberschwaben train or with the bus lines 3, 4 and 8. The bus stops directly in front of the centre. It's another 300 metres from Weissenau train station (in the direction of Weissenau town centre).
